Education

Baruch College, City University of New York

New York, NY

Bachelor of Business Administration in Computer Information Systems | GPA:3.5

Expected Graduation May 2024

WORK EXPERIENCE

Atlanta Hawks Basketball Strategy and Analytics

New York, NY

Front-End Developer Intern

May 2022 – August 2022

- Rebuilt Atlanta Hawk's player and teams' statistics management pages using React.JS
- Developed a front-end API to perform CRUD operations with player data being stored on S3 buckets
- Utilized Ag-grid and Bootstrap to create responsive data tables to visualize NBA athlete performance

Baruch College

New York, NY

College Assistant

August 2021 – March 2022

- Conduct one-on-one tutoring sessions with 20+ college students weekly in Calculus and Physics
- Lead weekly discussions and reflection sessions with fellow tutors to brainstorm ways to maximize time and tutor efficiently

West NYC

New York, NY

Web Developer

September 2021 – February 2022

- Utilized Bootstrap and JavaScript to update a responsive interface that serves 300+ users weekly
- Maintained a shopify website by automating the process of updating inventory using CMS Apps
- Designed product detail pages and retextured images using Photoshop

LEADERSHIP & PROJECTS

Baruch College Ascend Technology Committee Program

New York, NY

Assistant Vice President

October 2021 – May 2022

- Led workshops that focused on developing websites using HTML, CSS, and JavaScript to teach the fundamentals of how to create interactive websites
- Designed and implemented a WordPress website to promote Ascend Baruch, increasing over 40+ new committee members.

KRYPT

Full-Stack Application

- Utilized Figma to prototype a design for a modern glassmorphism application that is used to send Ethereum
- Created smart contracts using Solidity to send Ethereum via the blockchain network and pair with Metamask
- Implemented responsive Front-end components using React and Tailwind such as keeping record of transactions

SADIQUR'S FITNESS COMMITTEE

Front-end React Application

- Created a simple exercise SPA using React with routing components that displays a variety of exercises for users
- Utilized YouTube and ExerciseDB API to implement gifs of the exercises showing which muscles they target, along with video tutorials demonstrating the exercise
- Ensured responsiveness of application with a minimalistic design using Material UI

Awards & Honors

FTC Robotics Finalist Alliance Award

December 2018

FTC Robotics Motivation Award

December 2018 & December 2019
